2013 Classic 150
"The Wolf"

2013 SYM Classic 150 "The Wolf"

SYM is one of the worlds largest manufacturers of moto scooters. Established in 1954, SYM quickly became a brand recognized for its innovation and quality.

Honda's CB125 was produced between 1969 and 1985. It was famous for its extremely durable engine which required merely regular oil changes to last tens of thousands of miles. It was just during this period, that SYM partnered up with Honda and produced the CB for Honda, among other bikes. After SYM and Honda parted ways, SYM kept on developing the CB under their own name "Classic" or "Wolf". Now equipped with a 12V electric system and a 150cc engine, this classic café racer can be yours to own.
