

Who we are...

SF Moto is a small business that started in Fairfax inside of "moms garage" back in 1986. Currently located in the SOMA area of San Francisco, you can find us at 275 8th Street.

We operate with one simple rule: At SF Moto we pride ourselves on helping educate YOU (our customer) to make a purchasing decision that's in YOUR BEST INTEREST, whether it's about parts for your ride, protective apparel for you to wear, service & repairs, or your next new or used motorcycle or scooter purchase.

We truly love all things two wheels and will do whatever we can to help you maximize your motorcycle experience.

excellence in  
engineering since  
1956

SYM is one of the world's largest manufacturers of motor scooters. Since its introduction to the US market in 2006, the SYM HD200 has built a reputation for not only being the most innovative scooter in the country, but also one of the most robust. Unlike other brands that still use dim 35W lights, the HD's 60W halogen headlight turns your night into day. SYM is the only scooter manufacturer that applies ceramic coated cylinder technologies in their scooters, a technology otherwise reserved for high end luxury cars. Ceramic coated cylinders produce less friction, which result in longer engine life. Additionally, the water cooled engine of the HD200 produces 16hp with a top speed of over 70mp/h. Dual disc brakes round off the elegant design and high end engineering. You are truly getting a premium segment scooter without having to pay the price for one.

engine of life

motorcycle, scooter  
or car?

**Fuel Efficiency** The EPA, estimates the average gasoline consumption for a passenger car at 21.5 mpg. Realistically, the highway capable SYM HD200 scooter accomplishes about 75mpg, an SYM Symba manages 100mpg and a Citycom 300i (highway capable) also maintains 75mpg. This averages out to about 83.75 miles per gallon, ultimately letting a scooter travel 4 times the distance of the average car with the same amount of fuel.

**Economy** (annual estimates)

**MUNI**

Adult "A" fast pass \$888.00

**CAR** (based on 20 mile round trip, \$4.00/gallon)

Annual insurance: \$712.00

Gasoline (21mpg=228 gallons) \$912.00

Annual total \$1624.00

**SCOOTER** (based on 20 mile round trip, \$4.00/gallon)

Annual insurance \$150.00

Gasoline (80mpg=60 gallons) \$240.00

**Annual total: \$390.00**

**Environment** Without going into too much detail, scooters aren't just more fuel efficient, it also takes a lot less out of the environment to build them, ship them, supply them with fuels, parts etc. Here is why:

- The US imports roughly two million cars per year. That translates into about 104 gallons of fuel needed to get the car into a US port. For a scooter, only 24 gallons are needed, which is less than 1/4 of the fuel needed.

- The manufacturing process of a scooter only requires roughly 10% of the raw materials and natural resources required to build a car.

# 2015 SYM HD200 EVO

**FEATURES:**

Power: 16.5 hp  
Top Speed: 74mp/h  
Headlight: 60W Halogen  
Dual disc brakes  
Gasoline mileage: ~80mp/g  
Ceramic coated cylinder  
4-valve technology  
Water cooling

**SPECIFICATIONS:**

Engine: 4 cycle  
Size: 171.2cc  
Bore & Stroke: 61mm x 58.6mm  
Compression Ration: 10.8:1  
Cooling: Liquid cooled  
Transmission: Automatic CVT  
Starting System: Electric  
Wheel Base: 54.5 Inches  
Seat Height: 30.5", seated: 29.5"  
Front Suspension: Telescopic  
Rear Suspension: Unit Swing  
Front Brake: Disc, 220mm  
Rear Brake: Disc, 220mm  
Front Tire: 100 / 80-16 50P/TL  
Rear Tire: 120 /80-16 60P/TL  
Fuel Capacity: 2.11 Gal.  
Weight: 297lb

**COLORS:**

-  Red
-  Burnt Orange
-  Yellow
-  Glossy Black
-  Gunmetal grey
-  Matt gunmetal

**MSRP: \$3495.00**

Includes SYM's  
2 year factory  
warranty
